Allowance."

The following is an examiner's statement of reasons for allowance:

second doped area, thus forming a PMOS element in the PMOS area.

Claims 1-20 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in performing a third patterning process using a third photomask to remove the remaining second metal layer in the second doped area, thus forming a second gate on the dielectric layer in the second gate area and performing a P ion implantation to from the second source/drain region in the second semiconductor island in the
